

I am Etta F. Anderson a lifelong resident and Tribal member of the Colorado River Indian Tribes. I am and was raised as the eldest daughter of the late Bernard and Alberta Thomas. I am the granddaughter of the late Faith Smith and Kermit Anderson. I am a descendant of the "Oach" clan. I still have my baby sister, Judy L. Thomas maintaining and keeping our family ties strong. I am the proud mother of (2) sons Adam C. Sevada and Mitchell B. Sharp. My greatest treasures are my grandchildren, whom I have 3 girls and 3 boys.

I am seeking a position for a (4) year term on the Colorado River Indian Tribes Council. This has been a heartfelt decision, up to the moment I am preparing this information. I have many concerns that guided me to finalize my decision to seek a Tribal Council position.

During my campaign I will bring forth and explain in depth what I believe can be improved, through teamwork and strong leadership. My position is a selfless act and I want to be your voice and your leader that can help in making changes that will benefit our Elders, Tribal members and our future generations.

I plan to focus on:

- Transparency
- Open door policy
- Open lines of communication/awareness
- Prioritizing our Membership

I want to be an advocate of the people and assure that I can do what is right. I fully understand I am but one person, but I want to hope that a new team is forthcoming and will broaden our Tribe and its membership. Please, when you vote, look at a person's sincerity and willingness to work for you!

I am walking into this challenge with ALL members at heart and willing to work for the people! I ask for your vote and look forward to your support during this time.

*Etta Anderson*
