CRIT EuroWaters
Nuchelle Booth

Hello fellow Tribal Members, my name is Bobby Page and I am running for re-election for a second term on our Tribal Council. The last four years on Council has given me the opportunity to understand and see firsthand we have succeeded and sadly where we have failed. We as a Tribe have so much potential that we have not explored. We must focus and have a vision for our future, without vision we will not have success. My platform will be focusing on our biggest asset, our water. We must be strategic in allocating funds and seeing that projects are completed. We must continue to work diligently with CRRMC on housing issues. Internally we must ensure open communications between departments and enterprises to promote success.

Please follow me on my Facebook re-election page. On this platform I will be discussing these issues and many more. I am asking for your support to continue the work that I have been doing the last four years. I am asking for your support to make the Colorado River Indian Tribes the most successful we have ever been. Thank You and I look forward to discussing our future with each of you.
